was sold to

Clairfield International in the UK (Orbis Partners) acted on behalf of Clifford House.

"I found Orbis to have a very client-centred approach, initially assisting us to develop an exit strategy that met the differing aspirations/needs of the partners. Orbis' sector knowledge and relationships were key in attracting the right buyer for Clifford House. We are delighted with the outcome."

John Brierley
Managing Director of Clifford House

Client overview

Established in 1989, Clifford House is the largest provider of residential care services for children with special needs in the West Midlands. It also provides high-quality education for children who are unable to attend mainstream schools.

The business offers flexible packages to children and young people with complex emotional problems and related behavioural difficulties. It caters to some of the most hard-to-place children.

Situation overview

Orbis Partners were appointed to sell Clifford House. Orbis' expertise in the health sector was one of the key factors in winning the mandate to advise on this transaction. Orbis worked closely with the client to find a buyer with a strategic fit that shares the same ethos as Clifford House.

Clifford House was sold to Advanced Childcare Limited, which is funded by a US private equity group, GI Partners.

Advanced Childcare Limited is a specialist provider of children's care and education services with a combined portfolio of 49 homes, providing care services in rural, semi-rural and urban environments.
