March 2011

Clearwire is the pioneer in 4G and builder of the first 4G Network in USA. The Clearwire 4G mobile broadband network now reaches 119 million people in the U.S. and covers over 70 of the top U.S. markets.

As a part of restructuring of its international investments portfolio, Clearwire decided to divest its operations in Poland.

Clearwire Poland holds a nationwide 3.7 GHz license and operates a network of WiMAX base stations covering major Polish metropolitan areas.

Clairfield Partners in Poland (CET) acted as the financial advisor to the seller.
